

ReviewCaddy Extension – Installation Guide

Steps to download & install ReviewCaddy extension

- a. Login to your Magento Marketplace account.
- b. Search and purchase the ReviewCaddy extension.
- c. After the extension is purchased you would see an option to download it as a package zip file on the My Purchases page.
- d. Now login to your Magento website administration panel, go to System > Configuration > Magento Connect > Magento Connect Manager. You will see a Magento Connect Manager login screen, login with administrator credentials. You will see two tabs – **Extensions** and **Settings**.
- e. From the **Extensions** tab > **Direct Package File Upload** > **Upload Package File** > browse for the package zip file and upload. Scroll down to check the installation status. After you see a successful installation message, click on the Refresh button.
- f. After installation, check whether the extension is enabled from Magento administration panel. Go to **System** > **Configuration** > **ADVANCED** > **Advanced**. The Magento extensions are listed here, update the status of ReviewCaddy extension to 'Enabled' from the dropdown. Click on Save Config button.
