Instant Purchase Extension M1 – Installation Guide

Steps to download & install Instant Purchase extension:

1. After the extension is purchased you would see an option to download it as a Vgroup_Instant_Purchase-1.0.1.tgz file on the My Purchases page.

2. Login to your Magento Admin panel.

3. Go to System > Configuration >Magento Connect >Magento Connect Manager.

4. You will see a Magento Connect Manager login screen, login with administrator credentials. You will see two tabs – **Extensions** and **Settings**.

5. From the **Extensions** tab >**Direct Package File Upload** >**Upload Package File**> browse for the Vgroup_Instant_Purchase-1.0.1.tgz file and upload.
Scroll down to check the installation status. After you see a successful installation message, click on the Refresh button.

6. After successful installation, return to Magento Admin Panel.

7. Clear the Cache from the System> Cache Management. Logout from the Magento Admin and login again.

8. Go to System > Configurations > Click on Instant Purchase tab, enable the Instant Purchase extension and click on 'save config' button, and clear the cache.
